**Beyond PsyPact: Mastering 20+ Legal & Ethical Mandates for Cross-Border Practice
with Marlene Maheu, PhD**

Many psychologists underestimate the complex web of state regulations beyond PSYPACT authority, often assuming that licensure alone ensures compliance. In reality, up to 20 additional state-specific regulations exist, each with nuanced requirements that could impact the legality of your services. Navigating these complexities has been challenging, with little practical guidance on identifying, tracking, and complying with nuanced differences across jurisdictions.

Join this Master Class led by Dr. Marlene Maheu, the pioneer in telebehavioral health compliance. Gain the expertise to stay competent and confident as you expand your practice. Dr. Maheu will guide you through essential terminology, and then engage you in a thought-provoking discussion, equipping you with the resources to grow your telehealth services safely across state lines or international borders.
